

Guide to Montana Career Information System Resource Materials

MCIS eWorkbook

Welcome to the Montana Career Information System (MCIS)!

The MCIS eWorkbook is broken into five sections:

-  Section 1: Exploring Your Interests and Skills
-  Section 2: Identifying an Occupation that Fits
-  Section 3: Getting Educated
-  Section 4: Paying for College
-  Section 5: Landing the Right Job

The sections do not need to be completed in any particular order, and some may not even apply to your particular course of study.

Simply click on the section folder of your choice, read the short explanation of the section, and download and print the activity worksheets you need.

Have fun discovering your future!

Introduction to the MCIS eWorkbook

The MCIS eWorkbook developed by Student Assistance Foundation provides Montana students and their families with access to portfolio management, career and occupational information, scholarships, college information and interest inventories.

Log on to MCIS from nonprofit Student Assistance Foundation's Web site, www.SmartAboutCollege.org, and build a portfolio that will help you map your path to the college and career of your choice.
